

WE ARE **FLIGHT CONTROL EQUIPMENT**

*READY FOR SINGLE
PILOT OPERATION?*

Center of Excellence for Pilot Interfaces

Performance first!

Designed and engineered to meet the highest industry standards, our aerospace control solutions offer unparalleled precision, reliability, and ergonomic design. Whether you are flying a commercial or military aircraft, a private jet or an eVTOL, our products are tailored for safety and comfort.

35+ years' experience
in Fly-by-Wire flight control

Compliant with: CS23-14CFR23,
SC-VTOL-01 and CS29

30+ Active Programs

Flight Control Equipment

WHEELS & GRIPS

SUPERIOR COMFORT AND ERGONOMIC DESIGN

Control Wheels & Grips

Maintain complete control of the aircraft even during the most challenging conditions with our ergonomic and tailor grips and wheels

Buttons

Experience precision and control with our advanced aerospace buttons with ergonomic designs and intuitive placement

FLIGHT CONTROL EQUIPMENT

PERFORMANCE FIRST!

Since 1985, the popular Fly-by-Wire product line has been a recognized leader in aircraft flight control equipment for the general aviation, business aviation, rotorcraft and military aircraft markets.

Side Stick Controllers

Compact & ergonomic design to save space in the cabin and improve maneuverability

Thrust Control Lever

Intuitive design that allow pilots to maintain complete control over their aircraft's thrust systems with ease

Secondary Levers

Responsive & easy-to-use manual controls for the flaps, landing gear, or other critical systems on the aircraft

Electric Pedals

Smooth & precise control over the aircraft's speed and braking to safely and efficiently operate the aircraft

DESIGN LAB

6 R&D CENTERS & 100 ENGINEERS

To help you bring your innovative ideas to life!

100 years of electromechanical, electronics and software expertise at your service!

M.R.O.

WORLDWIDE REPAIR STATION

Comprehensive repair, overhaul & refurbishing services

Five "PART 145" certifications: EASA, FAA, TCCA, CCAC & UK-CAA
