Aerospace Services

DESIGN LAB

6 R&D CENTERS & 100 ENGINEERS AT YOUR SERVICE

Our cutting edge **DesignLab**, composed of 100 Engineers & Technicians, can help you bring your innovative ideas to life.

100 years of electromechanical, electronics & software expertise allow us to provide comprehensive and innovative solutions for the design of your aerospace components and equipment.

INSTRUMENTATION

TRUST THE EUROPEAN LEADER FOR TESTING STRUCTURE INTEGRITY

We have 15 experts around the world to measure **structural force & load** to ensure the reliability of an aircraft or a given piece during static and flight tests.

We can meet your testing needs, from designing and installing sensors + data acquisition systems, to providing real-time data analysis and reporting.

MAINTENANCE, REPAIR & OPERATIONS

A WORLDWIDE HIGH-QUALITY REPAIR STATION

Our **Repair Station Team** provides comprehensive repair, overhaul, and refurbishing services during the entire life of your aerospace program.
