

ELECTROMECHANICAL ACTUATORS & MOTORS

FOR AEROSPACE & DEFENSE

TYPICAL APPLICATIONS

COCKPIT & CONTROL EQUIPMENT

Windshield wipers, pilot seat
actuation, stick shakers

CABIN EQUIPMENT

Seat actuation, waste water
valves, window shades,
vacuum pumps, trash
compactors

DOORS

Overhead bins, PAX doors,
landing gear & thrust reverser
door latching mechanisms,
maintenance door opening
and locking systems

DEFENSE

Pod & gimbal actuators,
azimuth and elevation
(housed or as component),
access ramps, seat actuation

From standard to fully customized solutions
Committed to customers' requirements

60+ years experience in precision motors engineering
Brush & brushless motors, linear & rotary actuators,
electronics

French based technical expertise center
With dedicated mechatronics engineers

Production sites in France, Morocco and China
EN9100 certification

WE ARE PROUD MEMBERS OF:
