

(84870110)

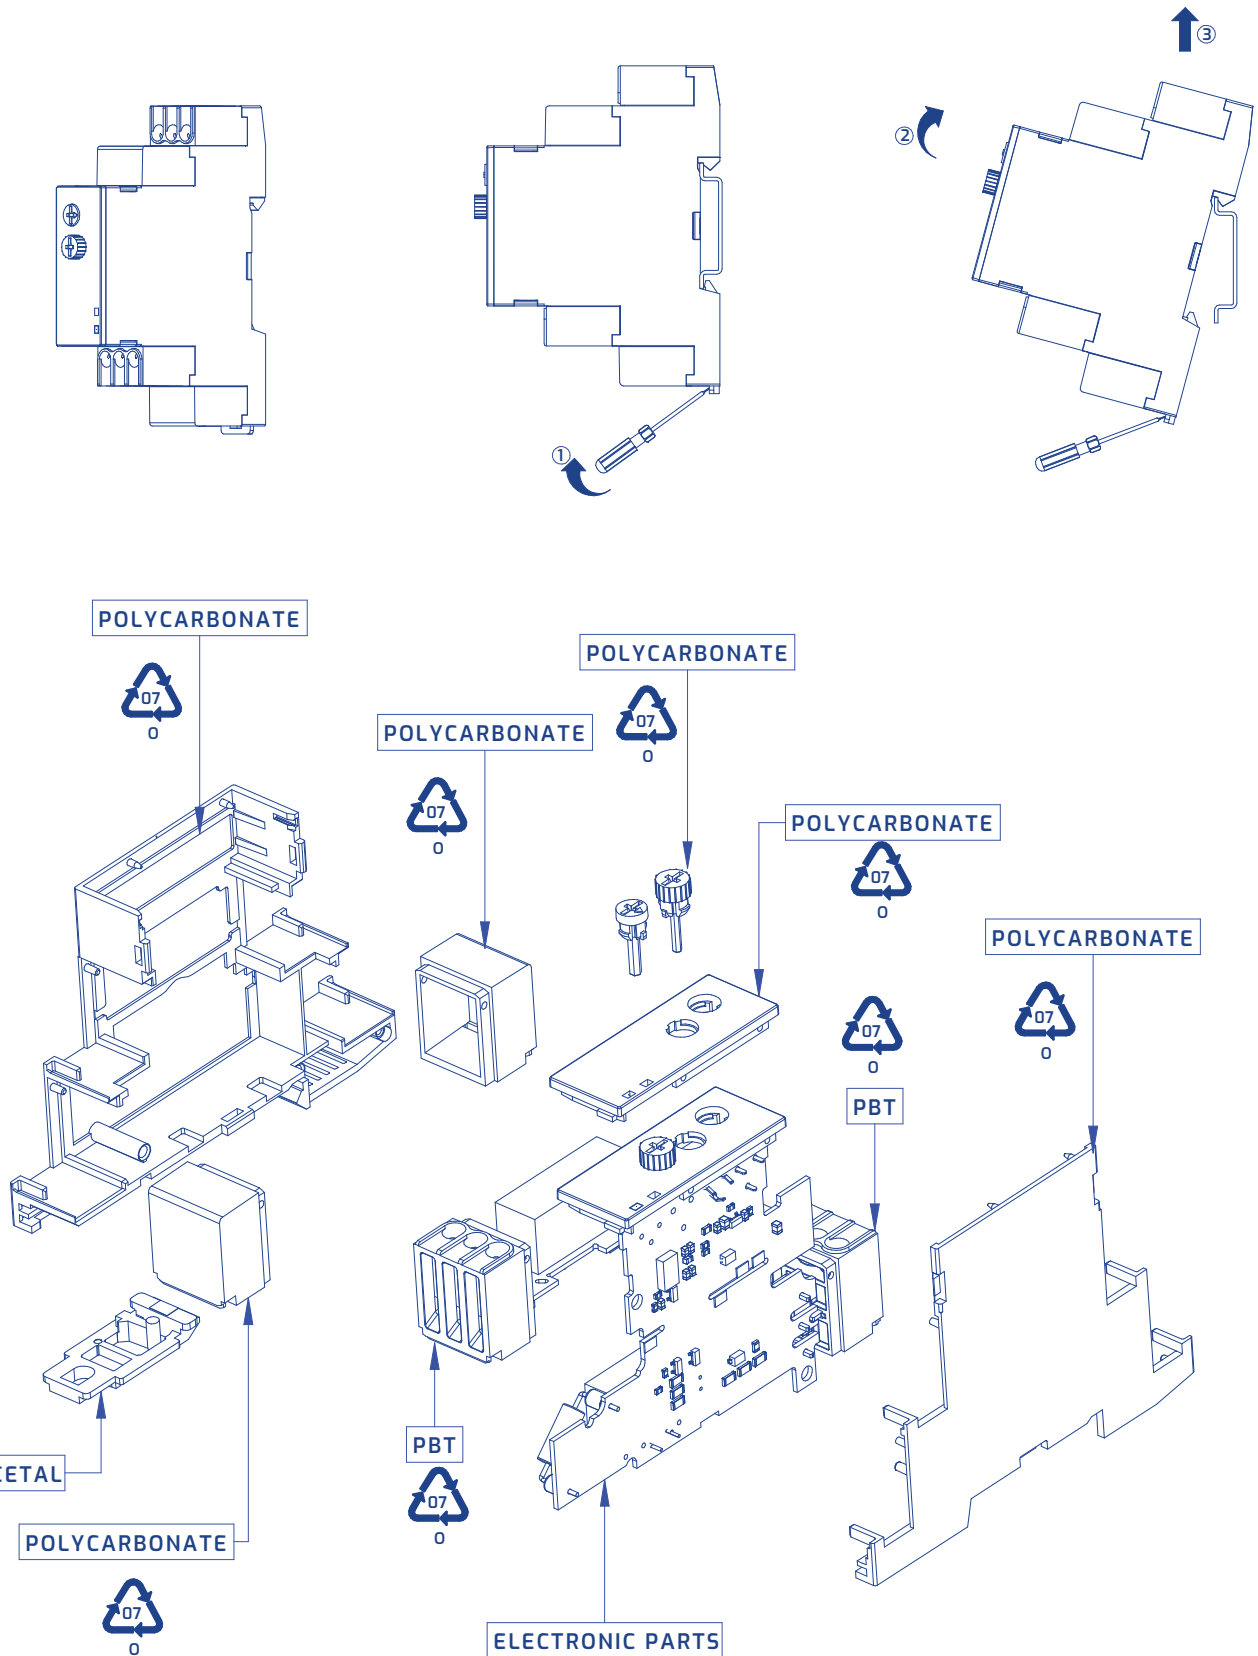

The diagram illustrates the disassembly and recycling of the HP LaserJet Pro M402 printer. It shows the front cover being removed in three steps: 1. Loosening the bottom screw, 2. Lifting the cover, and 3. Removing the top screw. Below, an exploded view shows the front cover and other components with arrows indicating their recycling paths. The paths are categorized by material type and recycling code (07 for plastic, 0 for metal, and PBT for electronic parts).

- POLYCARBONATE** (07): Front cover, top cover, and various internal plastic parts.
- PBT** (07): Electronic parts and internal plastic components.
- METAL** (0): Internal metal frame and components.
- ELECTRONIC PARTS** (PBT): Main printer assembly and internal electronic components.
